

The 11th JFPS International Symposium on Fluid Power

HAKODATE 2020**Oct. 12 (Tue.) – 13 (Wed.), 2021****ONLINE****URL** <http://www.jfps.jp/net/11thjfps/>

The Japan Fluid Power System Society has been holding the International Symposium on Fluid Power every three years since 1989. Due to the COVID-19 pandemic, the 11th symposium, HAKODATE 2020, has been postponed to be held online during October 12-13, 2021 with pre-recorded video presentations and interactive discussions on web. The symposium will be addressing recent developments in fluid power technologies including oil-hydraulics, pneumatics, water hydraulics and functional fluids, and will include presentations on basic research, application, and case studies. Organized sessions will provide valuable forums of exchanging ideas and opinions on current and newly developing technologies for researchers and engineers from all over the world. The Best Paper Award and the Best Student Paper Award will be instituted. We look forward to sharing the latest research contributions among our fluid power community. Let us enjoy the first fully online JFPS International Symposium!

General Chairperson : **Prof. Yutaka TANAKA**
Hosei University
