

The 13th JFPS International Symposium on Fluid Power

HIMEJI 2027

November 2-5 2027

Venues

Arcrea HIMEJI

143-2, Kamiyacho, Himeji-city, Hyogo, 670-0836 Japan
<https://www.himeji-ccc.jp/en/>

On behalf of the Japan Fluid Power System Society (JFPS), I am pleased to announce that the 13th JFPS International Symposium on Fluid Power will take place from November 2-5, 2027 at "Arcrea HIMEJI" in Himeji, Japan. This symposium will bring together many presentations from around the world on the latest trends in fluid power technologies, including oil hydraulics, pneumatics, water hydraulics, and functional fluids, as well as basic research, applied research, and case studies, and promote international exchange among fluid power researchers and engineers. In addition, the symposium will also feature an exhibition of innovative fluid power systems and components.

The host city, Himeji, is a city of history and culture located in western of Japan, and is the central city of the Harima region, in the southwest of Hyogo Prefecture. It is home to Himeji Castle, a UNESCO World Heritage Site, and is the manufacturing center of the Harima coastal region, where manufacturing is thriving. It is an ideal location for researchers and engineers of fluid power to gather.

We will welcome many fluid power researchers and engineers from academia and industry from various countries around the world to Himeji.

Important Dates

Deadline of abstract (150 - 200 words) submission	: March 1, 2027
Notification of abstract acceptance	: April 1, 2027
Deadline of paper submission	: May 1, 2027
Notification of final paper acceptance	: July 15, 2027
Early registration on or before	: August 15, 2027
Deadline of video submission	: Early September, 2027
Symposium	: November 2-5, 2027

General Chairperson : **Yasukazu Sato**
 Professor,
 Yokohama National University
